General information about the Company

The joint stock company mFinanse was established through the transformation of Aspiro Sp. z o.o. under a notarial deed of 21 June 2010. The change of legal form took place on 16 September 2010.

By resolution of 24 June 2016, the Extraordinary General Meeting decided to change the company's name from Aspiro S.A. to mFinanse S.A. The change was entered in the Register of Entrepreneurs of the National Court Register on 30 September 2016.

In 2023, the Company conducted business activities within the scope specified in the Company's Articles of Association. The Company's core business covers auxiliary financial activities not elsewhere classified.

The Company's services include intermediation in concluding and amending loan agreements, performing factual activities related to banking activities, including obtaining documents to conclude agreements, as well as providing sales and after-sales service. Our focus lies not only on credit products, but also on the sale of accounts to natural persons and products dedicated to SMEs.

mFinanse provides services across the country through traditional distribution channels. Its business model is based on the management of two networks for the distribution of financial products: a network of mKiosks and a credit product sales network. Both networks pursue their tasks in line with the mBank Group strategy.

mKiosks are ultralight outlets (points of sale and customer service) located in the walkways of the best shopping centres. They complement the services offered by mBank's flagship branches. mKiosks sell only products and services offered by mBank and are branded with mBank's logo.

The credit product sales network is the second component of mFinanse's business model. It includes mFinanse's flagship branches and outlets operated by external partners, which are located in modern office buildings and attractive city locations. The main focus of the credit product sales network is the sale of mortgages to natural persons. This is complemented by the distribution of non-secured loans to both natural persons and business clients.

In tune with the changing trends, we are also active online. We share our expert knowledge in the financial blog available on our website www.mfinanse.pl. Moreover, we launched a mortgage comparison engine www.policzkredyt.pl, which our clients can use to take the first step in getting a loan.

An additional channel, which we started building in 2019, is the partner network located in small towns in which mFinanse had not been present before. Partner outlets offer a full range of products from both mBank and external financial partners. The partner network operates in two formats: under the mFinanse brand and under its own brand.
