 - 2/ the certificate is suspended (also after the suspension of the certificate has been revoked),

14. We execute orders signed electronically as soon as possible after checking the electronic signature. The exception is where orders are time stamped (within the meaning of Regulation No. 910/2014) at the time of creating the electronic signature. In that case, the Bank executes the orders as soon as possible after they are time stamped by a trust service provider and the Bank checks the electronic signature.
15. In the case of orders placed with an electronic signature, we apply the order execution deadlines subject to the provisions of paragraph 14, unless the Agreement provides for different execution deadlines.

5. If the Alternative Benchmark after adjustment is available at the end of the period for which interest is calculated (so that the Alternative Benchmark after adjustment is available later than the one it replaced), actions requiring the determination of the amount of the Alternative Benchmark after adjustment are performed by us at a later date (e.g. we communicate the amount of interest due at a later date).
