## Main rules used in transaction details

1. DT – means debit side of booking
2. CT – means credit side of booking
3. If value of field for given key word is empty, it will be not presented in transaction details (eg. Key words: [kurs/exchange rate](#), [waluta/currency](#), [kwota/amount](#) will be used only in case of currency exchange)
4. At front of each key word a space character is used; before next key word a space and semi-colon character is used.
5. each key word is separated with its value by a space character
6. In case of sub fields, existing in a given field, they are separated by a single space character
7. Field amount with 0,00 value, is treated as empty field and is not added to the transaction details
8. Date format: dd.mm.yyyy,
9. Amount format: 9999999,99
10. Exchange rate format: 9999999,9999

In second line of each table there is a string, which begins the transaction description. This string contains two elements:

- numeric code (from 1 to 3 digits)
- free text description  
(eg. 2 Cash withdrawal)

[In case of MT940 delivered to Customers via SWIFT, sign ";" is not used in the structure of key words. Field :86: can have no more than 6 lines, 65 chars per one line \(6x65\).](#)

## Rules related to the presentation of details of split payments

1. mBank will use the additional string "SP" in the description of transaction codes recognizable as a split payment, the. This string is an abbreviation of the word "Split Payment".
2. Split payment is a special case of payment types, where we are dealing with information about the amount of VAT related to the invoice payment.
3. Description of code words that will appear in the payment details marked as split payments:

Code word	Format n - numeric a - alphanumeric V - variable length	The content of the field
/VAT/	10,2 n V	VAT amount expressed in PLN, e.g. 10.00 with a separator ",". Field is required.
/IDC/	14 a V	Identifier of the VAT tax payer (invoice issuer). Field required for domestic payments including direct debits.
/INV/	35 a V	VAT invoice number or the fixed value of " <a href="#">przekazanie własne</a> " (value required by law) in case of recounting funds between own VAT accounts within one bank. Field required.
/IDP/	20 a V	<b>The field only appears for direct debit.</b>  Payment identifier.
/TXT/	33 a V	Payment description. Optional field.

**Transaction code: 2 Cash withdrawal PLN (DT)**
